

Some Fun from the School Age 2015 Enrichment Camps!

“My son and daughter are truly
blessed to have had the
opportunity to be “children” of St.
Paul’s CELC!!!”
~Gerhart Family~

Camp Scheduling

If you are not currently enrolled in our After-School Program please feel free to take advantage of our new summer camp program.

Our new program allows you to choose the camps that best fit your family’s needs. No need to sign up for the entire summer. Choose from three to all twelve camps!

- Camps are held from 9 AM to 3 PM Monday through Friday.
- Before and After Camp care will be provided at an hourly rate of \$6.20 per hour.
- Field trips will take place on most weeks at an additional cost of \$10 or \$15 per trip.
- There will be a 10% discount given to families who sign up more than one child.
- Before and After camp care schedules will be due one week prior to your child attending camp

Now offering a flexible schedule for those of you who are not currently enrolled in our full-time care!

Please feel free to contact us for more information!

Welcome to St. Paul CELC

Camp Sessions

June 13th-27th - Scientific Method week #1. We will be introducing the scientific method and begin using it ourselves in small experiments.

June 20th-24th - Scientific Method week #2. Ice magic! Students will be making “growing hot ice”, sticky ice, and making our names in ice!

June 27th- July 1st - Scientific Method week #3. We will be focusing on electricity! Students will be building circuits and experimenting with the flow of electricity.

July 5th-8th - Scientific Method week #4. Three Little Pigs! We will be building houses with different materials to see what can withstand the test of the ‘big bad wolf’!

July 11th-15th - Math week #1. We will be focusing on building towers! We will be working to build the tallest, strongest towers we can out of a variety of materials!

July 18th-22nd - Math week #2. We will be creating our own towns this week! Students will plan out and build their own towns, focusing on what structures are necessary to make a successful town, making a town that is strong enough to withstand an earthquake, and making a movie to destroy their town at the end of the week!

July 25th-29th - Math week #3. Pizza week! We will be focusing on the math aspect of making, serving, and sharing pizzas! We will even be making our own pizza using ingredients from the Cheetah garden!

August 1st-5th - Engineering week #1. We will be focusing on building structures of different styles and designs! The students will be able to use a variety of materials to build structures, and see if they can withstand the pressures of the ‘weather’!

August 8th-12th - Engineering week #2. We will be building bridges of all shapes and sizes! Students will use different materials to build bridges to see how much weight they can hold!

August 15th-19th - Engineering week #3. We will be building roller coasters! Students will use various materials to build roller coasters and even see if they work! They will have the chance to plan out and design their own coasters, along with designing their own Amusement park for the coaster to be housed!

St. Paul Christian Early Learning Center is excited to offer summer enrichment camps for School Age children. Our summer enrichment camps are packed full of hands on activities to make learning fun!

We provide many fun and exciting field trip options, as well as engaging speakers that provide hands-on learning throughout the summer months! Your child will also be exposed to a summer reading program and the Lancaster Library system sends a Book Mobile once each month for children to borrow library books! Our School-Age garden area will be sure to please those who love to cultivate the land as we water, nurture and enjoy the fruits of our labor during the warm summer weather!
