Welcome to St. Paul CELC

St. Paul Christian Early Learning Center is excited to offer summer enrichment camps for preschool children. Children must be toilet trained and we recommend that they have had social experience with other children. Our early learning summer enrichment camps are packed full of hands on activities to make learning fun!

Our preschool camps are staffed with the same high quality teachers who work in our program all year long. All teachers are certified in CPR and Pediatric First Aid.

If you are new to St. Paul CELC, please include a copy of your child's immunization records along with your registration.

3 and 4 Yr. Old Preschool Enrichment Camps

[STEAM Art Enrichment Camp:
Monday, June 20 - Friday, July 1](#)

During these two weeks, the children will learn how to make a hypothesis, use the force of gravity to create art, make a pendulum to use as a paint tool and use rolled paper to create 3D art. We will also incorporate color mixing science experiments.

[STEAM Technology and
Engineering Enrichment Camp:
Monday, July 11 - Friday, July 22](#)

These two weeks will be centered around classic fairy tales and nursery rhymes such as The 3 Little Pigs, Little Red Riding Hood, 3 Billy Goats Gruff, Humpty Dumpty, and the Gingerbread Man. The children will be using engineering skills to construct bridges, rafts, and houses.

[STEAM Math Enrichment Camp:
Monday, July 25 - Friday, August 5](#)

We will be diving into the world of math in a variety of ways. The children will be conducting various experiments, creating works of art using geometric shapes and using household materials to create shape bubble wands.

[STEAM Science Enrichment
Camp: Monday, August 8 - Friday,
August 19](#)

The little scientists will be conducting experiments during this camp. A few experiments include a UV Ray investigation, using ramps, building a bridge and making a static electricity butterfly.
